
Memory & Aging Project (MAP), Alzheimer’s Disease Research Center (ADRC), Department of Neurology, WUSM
Director of Medical Training: David Carr, M.D. (286-2706; Pager 790-2790).

This guide is intended for use by medical students, residents and other trainees rotating through the MAP-ADRC. Certain educational experiences are required for all trainees, whereas others are optional. Use this schedule to organize your time. Use your free time to read articles (provided by Dr. Meuser), confer with clinical staff, and prepare assigned presentations (if applicable).

Contact Tom Meuser, PhD, ADRC Education Core Leader, to arrange a tour and orientation on your first scheduled day (286-2882; meusert@wustl.edu). If Dr. Meuser is away or unavailable, contact Mary Coats, MSN, to set up this orientation (286-2303; coatsmn@wustl.edu). Clinical observation is an important component of this rotation. You are encouraged to observe as many ADRC affiliated clinicians (physicians and nurses) as possible during your stay. You may observe in MAP and the Memory Diagnostic Center (MDC). Dr. Meuser will instruct you in how to arrange such observations. David Carr, MD, provides supervision in MAP and on residents this rotation. New medical trainees should contact Dr. Carr to set up a supervision schedule.

ALL TRAINEES are required to complete a trainee registration sheet and sign a confidentiality statement. Copies may be obtained from Doris at the front desk or from Dr. Meuser. Trainees from outside of Washington University (e.g., students from other institutions, international fellows) must complete HIPAA and Human Studies training modules if their rotation is longer than 5 days. See Dr. Meuser to arrange this.

Key:
A = All trainees
B = Medical Student
C = Neurology Resident
D = Other Resident
E = Other Trainee
O = Optional
R = Required

MAP / ADRC
4488 Forest Park Ave.
Lower Level
286-2863 (front desk)

Presentations
Trainees rotating for 4 or more weeks are required to give 1-2 10-minute presentations (15 slides max.) on a topic related to dementia for members of the ADRC community. See Dr. Carr or Dr. Meuser for topic suggestions.

Assuming a four-week rotation, you would give your talk at weeks 2 and 4. Confirm your specific presentation dates with Dr. Meuser.

When?
- Thursdays, 12:00 – 1:00 PM
- ADRC Conference Room

Media?
- Use of PowerPoint slides is required. You may also prepare a handout.

Required Observation
Make every effort to sit in on one of Dr. Carr’s MAP assessments each week:
- Mondays at 1:30 PM
- Fridays at 1:30 PM

Clinical Observation Opportunities

Memory & Aging Project (MAP) AR
Times subject to change due to vacations, cancellations, etc. A weekly schedule is posted in the front office. Ask Doris Jones for assistance in reviewing this.
Monday
9:30 AM – Monique Williams, MD (Geriatrician)
9:30 AM – Jim Galvin, MD (Neurologist)
1:30 PM – Jim Galvin, MD
1:30 PM – Joy Snider, MD (Neurologist)
Tuesday
9:30 AM – Jim Galvin, MD
9:30 AM – Gabriel De Erasusquin, MD (Psychiatrist) – 3rd Tues
Wednesday
9:30 AM – Consuelo Wilkins, MD (Geriatrician)
9:30 AM – Monique Williams, MD (Geriatrician)
10:30 AM – David Carr, MD (Geriatrician)
1:00 PM – Joy Snider, MD
2:30 PM – Gene Rubin, MD (Psychiatrist)
Thursday
1:30 PM – Jim Galvin, MD (Neurologist)
1:30 PM – Stacy Schneider, MSN, or Mary Coats, MSN
1:30 PM – Randall Bateman, MD (Neurologist)
Friday
9:30 AM – John Morris, MD (Neurologist)
9:30 AM – Jim Galvin (Neurologist)
9:30 AM – Joy Snider, MD (Neurologist)
1:00 PM – Jim Galvin (Neurologist)
1:00 PM – Michelle Burack, MD (Neurologist)

Memory Diagnostic Center (MDC) bcdo
MDC observation is not always possible. Call Benita Austin, MSN, for details & permission (286-1970).
Monday Clinic
1:00 PM – Jim Galvin MD
Tuesday Clinic
1:15 PM – Joy Snider, MD
Wednesday Clinic
8:30 AM – John Morris, MD
Thursday Clinic
1:00 PM – David Carr, MD
Friday Clinic
12:00 Noon – Randall Bateman, MD

Other Opportunities ao
- Observe family conference (contact Terri Hosto, MSW, for details: 286-2418)
- Learn about psychometric testing for dementia (contact Denise Maue Dreyfus, MA, at 286-2688)
- Observe in-home assessment.
Call Marie Meizel, MSN, 612-5911.

Educational Resources
- Trainee workstations are behind the half-wall in the waiting room. See Dr. Meuser for password.
- See Resource Slots on wall by trainee computer
- ADRC Library (access from ADRC Office, 130)
- Patient assessment videotape library (see Mary Coats for access and direction)
